

# Learning Centre

Pre-Enrolment Form

# Welcome to our Learning Centre!

The Tutor Hub learning center offers home school facilitation and support in a safe and child-centered environment. Our professional team focuses on the individual needs of each child whilst working through a curriculum of their choice at their specific pace. We strive to create a warm, friendly and co-operative environment where strong values, core skills and understanding are nurtured. We believe that all parents have the right to choose how their children are schooled and we are here to support in any way we can by ensuring that quality instruction is given in a comfortable environment. If your child is not coping with the demands of main stream schooling, or just has different needs, we are here for you!

**Let's get started!**
